SBIRT-Training-June-17](http://www.bit.ly/SBIRT-Training-June-17)

Learn tools and techniques to guide care and improve outcomes.

- Short screening questions for alcohol, tobacco or drug use and depression.
- Questions to guide conversations about behavior.
- Warm hand-offs to behavior and substance use counselors.

You don't have to specialize in substance use, tobacco cessation or depression to help people get the care they need.

Essential for emergency departments, primary care, schools, integrated health homes, firefighters, paramedics, community-based organizations, outreach and advocacy.

Certificates of Completion provided. Future training opportunities will be available.
