

ABOUT TYLLAX

TYLLAX is a social enterprise that promotes African Heritage, Culture and LifeStyle through local community events. We hope to do this by collaborating with different Organizations, Entrepreneurs, Community Leaders and Influencers all around the world. We plan to create social events that highlight African Lifestyle, celebrate diversity and uniqueness each human being brings to the table, love and support for the less fortunate communities both here at home and abroad. Our dream is to provide help and support to women who have migrated due to different reasons in life. We want to help with anything we can.

TYLLAX is committed to supporting Refugee mothers living in the United States and elsewhere. The goal is to make an impact on the social issues that affect immigrants / African Societies by collaborating with media influencers, role models, philanthropists, humanitarians and well-wishers with the aim of supporting quality education, providing medical supplies to those lacking in remote areas of Africa such as Refugee Camps and local Villages, donate clothing and motivate the young adult African generation to do better.

ABOUT NAKUPENDA PIA

NAKUPENDA PIA is a campaign we have chosen to run during this hard period to spread a message of love and recognition to people who are and have been outstanding in their fields of work and in the community doing the most humanitarian work or putting their lives at risk for the right causes. Nakupenda Pia is an African word from Swahili meaning **I LOVE YOU TOO**. Being born out of love, we want to start by recognizing and showing back love to those that have given others without expecting anything back in our community.

Hence asking the community of Pierce County to be engaged in nominating people that have gone above and beyond for others and deserve to be recognized for their love and passion.

Our goal is aimed at rewarding these unsung heroes within our community by giving them the same love and passion they have given to others.
