

## Free COVID-19 testing at home

SCAN's at-home COVID-19 tests are free for people in King and Pierce counties. Both healthy and sick people are encouraged to get tested because it helps SCAN researchers and your local health department understand how many people have COVID-19 in your area. Your personal information (name, address, and test results) will be used only for COVID-19 monitoring purposes.

### How to get tested:

1. Get more information and sign up at [www.scanpublichealth.org](http://www.scanpublichealth.org)
2. A COVID-19 test will be delivered to you with easy instructions
3. Check your results online in 2-3 days

### Why use SCAN?

- Take the test from the convenience of your home
- Results in 2-3 days
- Collecting your own sample is easy
- SCAN tests are as accurate as tests in a doctor's office
- Your personal information is kept confidential

### Get Support

-  Call us at **206-616-5859** any day from 8 am to 8 pm PST
-  Email us seven days a week: [support@scanpublichealth.org](mailto:support@scanpublichealth.org)
-  Watch the How-To video by going to <https://www.scanpublichealth.org/how-to-use-a-scan-kit>

 Also available in Spanish, Vietnamese, Russian, Traditional Chinese, Tagalog, Amharic, Somali, and Korean. **Say your language when you call or email**
