3 Make an appointment with us. Call (253) 649-1418.

Some people may not qualify for testing with us. We don't offer routine testing. We don't test for herpes, warts (HPV) or trich. Other providers might.

Don't go to the emergency room for STD testing or treatment.
Emergency rooms are for life-threatening conditions. Go to an urgent care clinic or other walk-in provider.
